

The Music Man Silhouette was conceived twenty years ago with a goal to produce the finest instrument involving classic appointments and modern functionality. Artists such as Keith Richards, Ron Wood and Slash gravitated towards the Silhouette due to its comfortably contoured body, bevelled edges, and sparkling resonance. In celebration of our inaugural design, we are proud to offer the 20th Anniversary Silhouette. This anniversary edition features a lightweight alder body with flame or quilt maple top, with an option for a rosewood or maple fingerboard. The instrument's rear mounted electronics eliminates the need for a pickguard which allows the figured maple top to fully show its exquisite grain pattern. The 20th Anniversary guitar is exclusively offered in a Translucent Caramel Burst finish, highlighted by chrome pickup covers, and a 20th Anniversary emblem.
