

Celebrating 20 years as a signature artist, we are honored to commemorate Steve Morse with a brand new signature guitar. The SM-Y2D guitar features a poplar body with a maple top in flame or quilt, a cream binding, and a solid black finish on the back of the body. Three Dimarzio pickups in H-S-H configuration offer a new custom wound single coil pickup in the middle position. The SM-Y2D will come in three exciting new translucent finish options; Purple Sunset, De-Purple Burst and Tobacco Sunburst. To accent the overall appearance, this instrument will have a clear pickguard to show its beautiful grain.
